

from 1976

Istituto Musicale “Nelio Biondi” Camerino

Partner of State Music Conservatory “G.B. Pergolesi” of Fermo

Patronage of The Municipality of Camerino – Culture Department

“Adesso Musica” Association of Camerino, including Music Institute "Nelio Biondi" (partner of the Conservatory of Fermo for the pre- academic courses) and the music band "Città di Camerino", is asking few moments of your attention and sensibility to show you a problem about our activities.

The recent earthquake destroyed our headquarter, the Music Palace, where the Music Institute was based. Our 162 students (not only from our city but also from the seriously affected territory), 60 musicians of the band and 20 teachers can not continue their regular educational and cultural activities, as well as the planned projects: concerts, music contests, festivals, masterclasses and seminars.

We need a great help to restart.

We need a new building to give voice once again to our instruments, music and concerts for our city (<http://www.comune.camerino.mc.it>) and for all the territory.

We have the intention to realize a new building of about 380 sq.m., that can include at least 8 study rooms, one great room as rehearsal room/ auditorium, with the related services, where more than 150 students can have lesson. We are working to this project and to find, with the help of the Municipality of Camerino, the right area in which we can locate the new building, that we will use for several years, considering the reconstruction timing, and that is necessary to restart our activities. For this noble project, whose estimated costs are very heavy, we are trying to create a network of backers.

Every kind of aid and support, you and your company want to offer is welcomed.
